

Humipower

LIQUID HUMIC ACID

CONTENTS GUARANTEED: (From gross matter)

Total Humic extract.....	16 % w/w (18,08% w/v)
Humic Acids.....	9 % w/w (10,17% w/v)
Fulvic Acids.....	7 % w/w (7,91% w/v)
Density.....	1,13 gr/cc
PH.....	11

DEFINITION

Humipower is an humic amendment that, for its rich composition in Humic Acids, is specially suitable for improve the structure of tired soils and very mineralised, helping the liberation of blocked nourishment and stimulating the capacity of retention of the soil. Likewise, its action of vegetative stimulation on the roots and in the aerial parts of the plants, allows a better balanced development that have repercussion on increasing productions.

APPLICATIONS

It must be applied always dissolved specially adding in the irrigation water, directly to the flow of water or through the irrigation systems. Ideal apply the product by dripping irrigation.

Its application can be done by spraying soils (irrigate after this application) and by leaves way (0'3 l for every 100 litres of water).

It is suitable divide the dose at least in 3 or 4 applications.

Recommended doses can change in function of the conditions of soils and crops, must be improved in intensive cultivations or with poor soils .

ORIENTATIVE DOSES:

- Fruit trees: 30 to 80 L/Ha
- Horticulture: 30 to 60 L/ Ha
- Citric: 30 to 60 L/Ha
- Strawberry: 40 to 60 L/Ha
- Plane tree: 40 to 80 L/Ha
- Ornamental: 40 to 80 L/Ha

PREPARATION OF MIXTURES AND COMPATIBILITIES

Before preparing a final mixture is suitable make some compatibility test. In case of doubt contact with the Technical Department. **Humipower** has compatibility with the most of fertilisers and phythosanitaris of normal use. Don't mix with products of acid reaction (sulphuric acid, nitric, phosphoric, etc.), as well as with products which contains Calcium or Magnesium.

NOTES AND ADVISES

The recommendations and information that we give are the result of wide and severe test. However, in the utilisation could take part a lot of factors which escape to our control (preparation of mixtures, application, weather, etc.)The company assures the composition, formulation and content. The user will be responsible of the damage caused (fault of efficacy, toxicity in general, residues, etc.), for not to follow the instructions in the label.
